Kadlec IT SERVICES

KADLEC CARE

Your office computers, watched and backed up every day.

Kadlec Care is a monthly plan for the computers that run your business. We watch them around the clock, keep them updated, and back them up every night. Serving Beeville, TX and surrounding communities.

What's included with Kadlec Care

Watched around the clock
Monitoring and alerts, day and night.

Updates and patching
Operating system and common-application updates.

Backed up every night
Daily cloud backup on every computer.

Remote help when you need it
We can connect and help without a trip to your office.

Health and performance alerts
Disk space, hardware, and slowdowns get flagged early.

Antivirus checks
We keep an eye on antivirus status as part of routine care.

How it works

1

We set up care on each computer.

Once the plan is in place, we start watching your office computers.

2

We watch, update, and back up, every day.

Updates and patching, nightly backup, and alerts if something looks off.

3

When something needs attention, you call or text Adam.

Remote help is part of the plan. You talk to a person here in Beeville.

You talk to Adam, not a call center. Local help for Beeville, TX and surrounding communities.

Let's talk about your office.

STARTING AT

$75 per computer per month

plus $100 per office location for Site Records

Two options to talk through

OPTION 1

Workstation Care

$75

per computer / month for the first 5

- Each computer after 5 is $55 per month.
- Site Records is $100 per location per month.
- Daily cloud backup included on every computer.
- One hour of remote help per computer each month, pooled for the office.

OPTION 2

Workstation Care + Server Care

Same as Option 1, plus $150 per server

per month, added to the computer plan

- Same computer rates as Option 1 ($75, then $55).
- Site Records is $100 per location per month.
- Care and daily backup for each server.
- Server backup is fair use up to 1 TB per server.

A 3-computer office starts at $325 a month.

Need something more? Ask us

Network Care, prepaid support blocks, on-site visits, and extra remote time are available if they fit.
